EDUCATION

Universidad Carlos III de Madrid

Madrid, Spain

Dual Bachelor in Data Science and Telecommunications Engineering

Sep. 2021 - Jul. 2026

- **GPA: 8.70/10** with Honors in 8 subjects (Neural Networks, NLP, Communication Networks...).
- Awarded with "Beca de Excelencia de la Comunidad de Madrid" and Beca Santander de Movilidad Internacional 23-24 & 25-26 based on academic merit.
- Class Representative since 2021.

The University of Sydney

Sydney, Australia

Exchange Semester

Feb. 2026 - Jul. 2026

Nanyang Technological University

Singapore, Singapore

Exchange Year - GPA: 4.42/5

Aug. 2023 - Jun. 2024

EXPERIENCE

AI Research Intern

Feb. 2026 – Present

The University of Sydney

Sydney, Australia

- Conducting research with Prof. Pablo Montero-Manso on improving foundation models for time-series forecasting by integrating macroeconomic observations from FRED with their textual metadata (tags and descriptions).
- Exploring interpretability approaches based on bottleneck models to expose the factors driving model predictions.

Solutions Architect Intern

Jun. 2025 - Sept. 2025

Amazon Web Services

Madrid, Spain

- Designed scalable cloud architectures and technical solutions following AWS Well-Architected principles, optimizing reliability, performance, and cost.
- Built an internal GenAI project that improved a previous solution, reducing storage and retrieval costs by over 90% through the use of S3 Vectors.

Head of Events & Board Member

Sep. 2023 – Present

UC3M Business Analytics Association (BAUC3M)

Madrid, Spain

- Led industry-facing events and workshops with companies such as Microsoft, HappyRobot, BlackRock, and BBVA.

Research Assistant Intern

Sep. 2024 - May. 2025

IMDEA Networks & Universidad Carlos III de Madrid

Madrid, Spain

- Designed and implemented a Transformer-based autoregressive model for continuous-time prediction of user mobility in WiFi networks, jointly modeling spatial transitions and inter-event times.

PROJECTS

Multimodal Plan-Recommender Agent (Fever Collaboration) [🔗 GitHub](#)

Feb. 2026 – Mar. 2026

- Built a multi-agent system using the OpenAI Agents SDK to generate personalized event plans by integrating external tools such as the Google Maps API, weather data, and budget constraints to reason over real-world logistics.

Skill-Gap Analysis Platform [Live Demo](#) | *Python*

Dic. 2025 - Feb. 2026

- Developed an NLP-based platform that parses job descriptions and CVs to identify technical skill gaps between candidate profiles and market requirements, providing structured recommendations for upskilling.

TECHNOLOGIES & OTHER SKILLS

- **Languages:** Spanish (Native), English (C1)
- **Programming:** Python, Java, SQL, R
- **ML / Data:** PyTorch, Hugging Face, Scikit-learn, PySpark, Pandas, MLflow
- **Cloud:** AWS (EC2, S3, Lambda, Bedrock, VPC, Sagemaker)

CERTIFICATIONS

AWS Certified Solutions Architect – Associate [🔗](#)

Amazon Web Services (AWS) | Issued Aug. 2025

AWS Certified AI Practitioner [🔗](#)

Amazon Web Services (AWS) | Issued Aug. 2025
