Education

Universidad Politécnica de Madrid — Madrid, Spain
Master's Degree in Artificial Intelligence — *Sep 2026 – Present*

Universidad Carlos III de Madrid — Madrid, Spain
Dual Bachelor's Degree in Data Science and Telecommunications Engineering — *Sep 2021 – Jun 2026*

- **GPA: 8.82/10** with Honors in 8 subjects (Neural Networks, NLP, Communication Networks...).
- Exchange year at NTU Singapore (2023–24, GPA 4.42/5) and semester at The University of Sydney (2026).
- Comunidad de Madrid Excellence Scholarship (2021–22 & 2025–26), Santander Mobility Scholarship (2023–24 & 2025–26) and Nova 111 Student List 2026 (Telecommunications).
- Head of Events at the UC3M Business Analytics Association, leading a team of 4 on events with Microsoft, BlackRock, BBVA and Revolut. Class Representative (2021–2026).

Experience

Solutions Engineer Intern — Jun 2026 – Present
Salesforce — *Madrid, Spain*

- Enterprise team in Spain, focused on technical pre-sales for Agentforce, agentic AI and CRM solutions.
- Built Agentforce agents, helped prepare customer demos and took part in meetings with enterprise clients.

AI Research Intern — Feb 2026 – May 2026
The University of Sydney — *Sydney, Australia*

- Worked with Dr. Pablo Montero-Manso on multimodal time-series forecasting, building a dataset of 194K macroeconomic series from FRED enriched with their textual metadata.
- Designed a neuro-symbolic forecaster with an interpretable concept bottleneck that outperformed Chronos-2, TimesFM and AutoETS in MAE, MASE and win rate at an 18-month horizon.

Solutions Architect Intern — Jun 2025 – Sep 2025
Amazon Web Services — *Madrid, Spain*

- Designed scalable, secure AWS cloud architectures for customers from discovery to deployment, applying the Well-Architected Framework to optimize cost, performance and reliability.
- Built an internal GenAI project on Amazon S3 Vectors, cutting storage and retrieval costs by over 90%.

Research Assistant Intern — Sep 2024 – May 2025
IMDEA Networks & Universidad Carlos III de Madrid — *Madrid, Spain*

- Built a Transformer-based model that predicts where and when WiFi users move next, trained on ~6M campus authentication events; reached 72.5% top-1 accuracy and generated privacy-preserving synthetic traces.

Projects

Multi-Agent Plan Recommender (Fever Collaboration) *GitHub* — Feb 2026 – Mar 2026

- Conversational multi-agent system (OpenAI Agents SDK) that plans hour-by-hour itineraries with agents for search, recommendation and routing, evaluated with RAGAS and LLM-as-a-Judge.

Skill-Gap Analysis Platform *Live Demo* — Dec 2025 – Feb 2026

- NLP app that compares a CV with live job postings to rank skill gaps by demand and seniority.

Skills

- **Areas:** Machine Learning, Deep Learning, Generative AI, LLMs, NLP, Agentic AI, Time-Series Forecasting, Explainable AI, Data Science, Cloud Architecture, Technical Pre-Sales
- **Programming:** Python, SQL, Java, R, Git, Docker, Linux
- **ML / Data:** PyTorch, Hugging Face Transformers, scikit-learn, XGBoost, Pandas, PySpark, MLflow, spaCy
- **GenAI / Agents:** LangChain, LangGraph, OpenAI Agents SDK, RAG, Vector Databases, LLM Evaluation
- **Cloud / Platforms:** AWS (SageMaker, Bedrock, Lambda, S3, EC2, VPC), Salesforce (Agentforce, CRM)
- **Languages:** Spanish (Native), English (C1)

Certifications

- AWS Certified Solutions Architect – Associate (Aug 2025) | AWS Certified AI Practitioner (Aug 2025)
